Disclaimer: Sample photos only. All specifications refer to the trailer unit only.

INTRODUCING OUR 'GENERATION SERIES'

Our premium range of trailer units, selected for their proven reliability and performance!

Continuous Improvement isn't just a buzz word at Domett, it's a philosophy we run our company by and it's on the back of this concept that we are proud to offer the transport market our exclusive 'Generation Series' of truck and trailer units.

Our vision has always been to craft the best truck and trailer units on the road and with proven experience, we can confidently say we don't just understand the ingredients for a better tow - we live and breathe them!

As a specialist custom truck trailer builder, over the years we have seen an immense range of weird and wonderful design ideas come across our desks. We've been patiently field testing and banking all of them into our "rainy day file" for the development of our pedigree 'Generation Series' of trailers. These units have been field tested for proven reliability, performance and functionality. Thousands of hours have been spent both behind the wheel and combing the world for the latest innovations.

"TO PUT IT SIMPLY, THE GENERATION SERIES TRUCK AND TRAILER UNITS HAVE BEEN HANDPICKED TO INCLUDE A PREMIUM RANGE OF FEATURES, BUT AT A HIGHLY COMPETITIVE PRICE!"

MARKET LEADING AFTER SALES SUPPORT

- 2 years or 300,000km warranty.
- Free 3,000km service check at our factory or at an authorised service agent.
- Access to our online trailer login for unit specifications, service manuals and certifications.
- Ongoing parts and servicing available.
- Comprehensive operator's manual provided on trailer handover.
