ISO 7638 supply (5 or 7 polar).

please note:

This brake calculation is made under consideration of  
-the legal prescriptions mentioned above in the version valid  
at the time of making the program (VS.18.07.12).  
-the functional characteristics of our products  
as well as the data of the brake out of the test  
approvals of the axle manufacturer, and  
-the other vehicle data included in the brake calculation.  
Please check whether these data correspond to the actual vehicle data.  
Our conditions of delivery apply (particularly section 9.0).  
In any case we recommend to do a braking harmonisation!
