"ENGINEERED TO PERFORM, BUILT TO LAST"

4 AXLE QUAD 'GENERATION SERIES' SKELETAL TRAILER

Born in design, your trailer is purpose built using cutting edge manufacturing techniques ensuring you get a lightweight trailer that will provide optimal performance and handling trip after trip.

DIMENSIONS AND SPECIFICATIONS

- Length – 13.5m
- Height – 1.38m with 1200mm 5th wheel height to suit high cube containers
- Rear Spread – 4,000mm
- Wheelbase – 9,200mm
- Gross Vehicle Mass (GVM) – 42,000kg
- Estimated Tare Weight – 4,980kg

ENJOY GREATER STRENGTH AND LIGHTER TARE WEIGHT

- Main beams fabricated from high tensile steel
- Beam sections are high definition CNC plasma cut to protect cross member connections

DEDICATED SKELETAL UNIT FOR MAXIMUM PAYLOAD

- 6 x twist lock beams configured for 1 x 40ft (34,000kg), 1 x 20ft heavy (32,000kg) and 2 x light 20ft container
- 2" Holland Kingpin and Landing Legs to suit 1200mm or less 5th wheel height
- Optional extras include lift axle, WABCO smart board, swing lift pads and mid-genset mounts

RELIABILITY AND PEACE OF MIND WHERE IT REALLY MATTERS

- SAF Intradisc disc braked axles with integrated air suspension
- Wabco EBS braking system (12-24 volt) with PREV valve certified to NZ Heavy Vehicle Brake Rule
- Alloy air tanks
- Grease filled steel hubs

NZ COMPLIANT ELECTRICAL AND LIGHTING

- 6 x Hella LED stop/tail/indicator lights mounted in a polished stainless-steel light bar
- 5 x Hella LED side lights per side
- 1 x side indicator per side
- 2 x Hella LED reversing lights
- 7 pin male electrical coupling

PERFORMANCE AND STYLE

- 22.5" Alcoa super single polished alloy rims
- 8 x Double Coin RT920 355/50 R22.5 tyres (no spare or carrier included)
- Full plastic mudguards fitted over wheels with stainless steel infill between guards and full width DOMETT branded mud flaps on the rear axle set

WORLDCLASS FITTINGS AND FINISHING

- Trailer chassis is media blasted, primed and then top coated using a heavy duty electrostatic polyurethane coating to provide market leading performance
- Resene paint products covered by a full paint performance warranty from Resene
- Includes VIN, COF & Registration and plastic holders for licence/registration/RUC and HPMV attributes

Disclaimer: Sample photos only. All specifications refer to the trailer unit only.

INTRODUCING OUR 'GENERATION SERIES'

DOMETT
GENERATION SERIES

Our premium range of trailer units, selected for their proven reliability and performance!

Continuous Improvement isn't just a buzz word at Domett, it's a philosophy we run our company by and it's on the back of this concept that we are proud to offer the transport market our exclusive 'Generation Series' of truck and trailer units.

Our vision has always been to craft the best truck and trailer units on the road and with proven experience, we can confidently say we don't just understand the ingredients for a better tow - we live and breathe them!

As a specialist custom truck trailer builder, over the years we have seen an immense range of weird and wonderful design ideas come across our desks. We've been patiently field testing and banking all of them into our "rainy day file" for the development of our pedigree 'Generation Series' of trailers. These units have been field tested for proven reliability, performance and functionality. Thousands of hours have been spent both behind the wheel and combing the world for the latest innovations.

"TO PUT IT SIMPLY, THE GENERATION SERIES TRUCK AND TRAILER UNITS HAVE BEEN HANDPICKED TO INCLUDE A PREMIUM RANGE OF FEATURES, BUT AT A HIGHLY COMPETITIVE PRICE!"

MARKET LEADING AFTER SALES SUPPORT

- 2 years or 300,000km warranty.
- Free 3,000km service check at our factory or at an authorised service agent.
- Access to our online trailer login for unit specifications, service manuals and certifications.
- Ongoing parts and servicing available.
- Comprehensive operator's manual provided on trailer handover.
